

Points of Interest from Viking Management Committee meeting 09 Jan 2018

- Pace clocks have been moved and are now operating correctly
- Three blocks have been refitted and now need testing. A meeting with the site engineer is to be requested to understand how we can progress further improvements to the blocks.
- Christmas Gala was held on Saturday December 16 for squads in Ballyfermot. Minnows fun races were held on the last class before the Christmas break (19/12/17) in Stewarts.
- Club outing to Base was a great success.
- Club gear is still progressing, although not at the pace that we desire. A meeting with the vendor is scheduled for 14 Jan.
- Updated gala flyer and further information on the gala have been published. This was partly as a response to the AGM questions on being better informed for galas.
- Updated information has been received from Swim Ireland regarding our responsibilities under the Children Act. These will be reviewed and further updates will follow.
- 50M training dates have been booked and reminders will be sent in advance of sessions.
- Next Meeting February 6th 2018
